

# Concrete target

Make a shortlist of concrete actions, prioritise them and “assign” responsibilities

Actions divided in two groups:

- to be undertaken by South African parties
- to be undertaken by EU parties in co-operation with South African parties

# Items

- Policy related items
- Demonstration projects
- Commercial niche market opportunities
- Possibilities for SA - EU co-operation

# Policy related actions (DME/DANCED study):

- Development of a set-aside programme
- Power purchase regulation
- Integrated resource planning
- Tariff structure
- Innovative financing
- Green power marketing
- Capacity building

# Policy related priorities

- Clear (minimum) target to be set by DME
- Additional capacity at DME / NER
- Intermediate steps to be defined in order to reach the target (first step: SAP)
- Legislative rules (for IPP's)
  - clear mandate for NER
  - clear relationship between DME and NER
  - long-term ppa
  - responsibility for capacity planning  
(long term electricity planning)
  - clear time span
- Other recommendations from DME/DANCED study

# Boosting demonstration projects:

- Wind
- Biomass
- Wave
- Solar Thermal Power
- PV Grid connected
- Low cost energy efficient housing

# Demonstration projects / initiatives

- Ongoing initiatives in the field of demonstration projects should be supported
- The SAP should contain elements of demonstration
- (net metering issues)

# Potential of the EU:

- Sharing experiences and know how in the field of policy related issues
- Technological hardware
- Technological expertise
- Sharing experiences in the field of demonstration and dissemination projects
- Financing (export subsidies, CDM)
- Expertise on project development and implementation

# Mutual SA - EU actions

- Dissemination of EU experiences (standards, policy, liberalisation, implementation)
- Set-up of a RE innovation fund
- Student exchange programme / centres of excellence / chairs for RE / funding from EU
- Definition of an energy programme on regional level
- Joint R&D projects
- Possibilities for local manufacturing
- Research into success / failures with regard to RE in SA

# Follow up by the Synergy team

Communicate the actions that are defined by the participants of the workshop to the responsible stakeholders, e.g.

- EU member states and European Commission
- South African government
